\* Joe discussed with William about our group and the problems he is having with his neighbor's sitely property

\* Joe was reviewing our cookout and the backback give away. Joe and other members were voicing their opinions on the money spent for the cookout and that it ought to be voted on. We decided and all agreed that any expenses over \$100 would be voted on by board members and members at that particular meeting. Discussed next year it will not be free and we will come up with something that makes recipients more responsible for items they receive whether food or products. Maybe charge a small amount for food and drink. Need to have giveaway earlier next year possibly as early as end of July. Discussed how many bags given out- 20 to church and possible 20 to another organization.
